Beauregard

Repeater, Smoothbore
Events
Cost- \$5.00 a person

Food
We will try to have a small food concession for lunch and breakfast Sunday

Mid-Atlantic Region

"Fifth Annual Commanders Shoot"

Well by now you all know what this invite means, and you should know what you are about to all hear! This year we are doing things a little different, it was requested and approved by the Regional Board of Directors to have this years Commanders Shoot at our Fort Ross Location. It will be at a different location but it will still be the premier shoot that it has always been. As always We urge each and every member of our Region to attend because this is the only shoot that we have where all of the profits go straight to the Region.

This is your last truly local chance to get in some skirmishing before the leaves on the ground switche over to snow. It is also an excellent time to meet new people, with the "buddy style", you can sign up with one friend or as an individual and teams are picked at random.

We would like to stress the importance of pre-registering for this event. Without at least some small idea of the amount of people that are coming it really makes it difficult for the volunteer staff to come up with an appropriate amount of medals and target material. Please pre-register to WDSMAS@aol.com (Wayne Shaw) or JosephPlakis@comcast.net.

We would also like to remind everyone about the ability of non-members to shoot at regional skirmishes. During individual skirmishes guests can shoot N-SSA approved firearms! So this is a perfect time to expose someone to our sport, and get them out to see a real shoot! We all know how hard it is to explain what the N-SSA exactly is, and there is not better way then to just see it.

You all know of the great things that we have been able to do at both ranges, whether it was paying off our range development loan, donating money for the tables at Fort Ross, building the tower at Springtown, we were able to do all of those things because we had the money available. The question we must ask now is what do we want to do next? Fort Ross: 100 yard range? Tower? If your eyes lit up when you saw that ask how it would be possible without the appropriate funds in the Regional Treasury? We are not saying it is set in stone but We are saying it is possible!

See you in the Fall, Support the Region!
